

Corefact to Relocate California Printing Facility to San Leandro, CA

HAYWARD, CA - Corefact, a leading provider of powerful marketing tools and services with industry-leading technology, announced the relocation of its printing facility from Hayward, CA, to San Leandro, CA, effective March 27, 2023. The move is part of Corefact's ongoing efforts to improve efficiency and better serve its customers.

The new facility, located at 1700 Marina Blvd., San Leandro, CA 94577, will be equipped with state-of-the-art printing technology and equipment, allowing Corefact to provide even better quality and faster turnaround times for its customers. In addition, the new location is closer to major transportation hubs, making it more convenient for customers to receive their orders.

"We are excited to announce this move to our customers and partners," said Chris Burnley, Corefact CEO. "This move represents a significant investment in our business, and we are confident that it will enable us to meet the needs of our customers better while improving our operations."

It is important to note the relocation of our Hayward, CA printing facility will not impact the printing and production operations at our Louisville, KY facility. We will continue to provide uninterrupted service and support to our customers from this location.

The current facility in Hayward, CA, will continue to operate until March 27, 2023. Corefact will work closely with its customers during the transition period to ensure a smooth transition of their orders to the new facility.

"We want to assure our customers that this move will not disrupt their service with us," added Arnold Shurin, Corefact VP of Client Services. "We are committed to providing the same high-quality service and products our customers have come to expect from us, and we believe this move will help us achieve that goal."

About Corefact:
